

The Days of Thunder

Prophetic Word for November 2009

October 26 2009

The time has come, the winds have blown. The North winds are about to bring in the rain clouds. Before the storm comes you will begin to hear the sound of the thunder of the Lord. Who can hear such a thing? Who has an ear to hear the thundering of the Lord?

The God of Glory Thunders! The time of all things being fulfilled has come! First the winds had to blow, and now I am adding the sound of my thunder. Do you know what this means? Many of my own say, this day will never come upon us, but hear the Word of the Lord, The days of thunder will come and finish out this year until the Year of the Thunder and Lightning come in 2010.

To those that have an ear to hear, they will begin to hear the rumblings in the distance. They will begin to look for the “distant thunder.” A sound this world has never heard before. A sound of my oncoming glory! What does Glory sound like? It begins with a sound like the “thunder.”

Thunder always makes a way to notice the lightening has come! It allows you to know a storm is coming. The sound of thunders can shake foundations. The sound of thunder can strike fear into a man’s heart. So shall be in the coming days. Blessed is the man that prepares for the days that are to come by the hearing of the thunder.

It is a faint sound now, few can hear it, but it will increase in intensity in ways this world has never known before? Who is the wise man? Who is he that prepares himself for the days of thunder? Who can stand when He appears? And who can endure the day of His coming? Surely these are not words, but the very Word of God. For with each sound of thunder, there proceeds a bolt of lightning.

This sound of thunder is to reverberate through your very being. The lightning last but for a moment, but it sounds reverberates through the heavens and the earth. Blessed is the man that knows the sound of the thunder. Light has come, and the lightning is in the midst of the clouds, but it is the thunder that prepares its entrance. Who can understand these mysteries? Where are the wise ones now? Where are those who have figured out what I am about to do on the earth? Can you understand the language of the “distant thunder?”

Like a thief in a night, I will come upon my people unawares first if they don’t get ready, and then the world. Only those who learn the sound of the thunder shall be prepared. Those prepared by the North

and South winds will be ready to hear the sound of the thunder and the proceeding of the lightning bolts to come.

Such are my ways, that when I came down in the midst of Israel, I came behind a dark cloud, and my voice came and echoed like thunder and lightning, and they fled from my presence in their midst. Will it be also with you? Will you also flee at the sound of my thunder? Or will you be as Moses and come to me in the midst of the cloud and thunder?

This is the purpose of the North and South Winds coming. It is to separate unto me a people who are trained by and for the thunder and lightning of My coming Glory. When I appeared to John on Patmos, I showed him the “voice of thunder, as the voice of many waters.” He saw my peels of lightning and heard the thunder of My Glory.

My own ones will be like John; they will understand and become one with the sound of the thunder. They will have made themselves ready to be “true sons of thunder.” The first time I said to John, “you know not what manner of spirit you are, trying to call down fire from heaven.” But the time will come, that you will call down that fire! The time will come you will truly be sons of thunder to reveal my coming Glory.

Who will listen to the sound for the distant thunder? For all things are coming together as I have spoken. Do not let this day come upon you like a thief in the night. Don’t look for an event, look for Me! For in Me you do live, move and have your being. Such are those who know the sound and function of the My Holy Thunder.

I will teach those with an ear to hear, “The Voice of the Lord is upon many waters; The God of Glory thunders; the Lord is upon many waters.” This is a true saying! It is now to be revealed to those who have embraced the North Winds, and allowed them to do their work in their hearts. It surely will come to pass.
